			204.67x609 including spacers Spacers = 2.5						

(*) To use the 2-3/8" thick 8x24 Planklock with any 1-5/8" thick coping pieces, the deck base needs to be adjusted to match the coping thickness.

NOTES

1. You can expect a slight variation in shade color and patterns which again, simply adds to the natural appearance of each piece.
2. Pavers should be installed from several pallets at a time to maintain the best color consistency.
3. Due to processes required to manufacture, package, deliver, unpack, install, and compact the products, small chipping can be expected.
4. The 4x8 border pavers are machine cut and not dimensionally consistent. Artistic Paver Mfg. recommends these pavers should be used strictly as border material, therefore, not recommended for field material.
5. Pavers & coping are manufactured in metric sizes and are rounded to the closest size equivalent in English units.
6. The product images in our catalogs, brochures, or shown on monitor screens give a general indication of color for a preliminary selection. We recommend you also view current product samples and look at actual finished projects before making your final decision.
